

Covered Wagon

Bed: 3'1" x 10'3" x 23 1/2"

Rear wheel diameter: 56"

Thousands of Latter-day Saints traveled by wagon to the Utah Territory from 1846 through 1869. This wagon is a reconstruction of those made in Nauvoo, Illinois, for the journey west. The undercarriage and bed have been painted in the bright colors that would have been used by nineteenth-century wagon makers to protect the wood.
